DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which the subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 5-7 and 9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Subramanian et al. (5,668,021) in view of Admitted Prior Art (APA), for reasons of record as recited in previous office action (paper 14).

Response to Arguments

3. Applicant argues that Subramanian et al.'s device can not be formed because punch through may occur.

Applicant did not provide any evidence that Subramanian et al.'s device would not operate because of punch through.
